ROUTE GUIDE

WHERE TO STAY

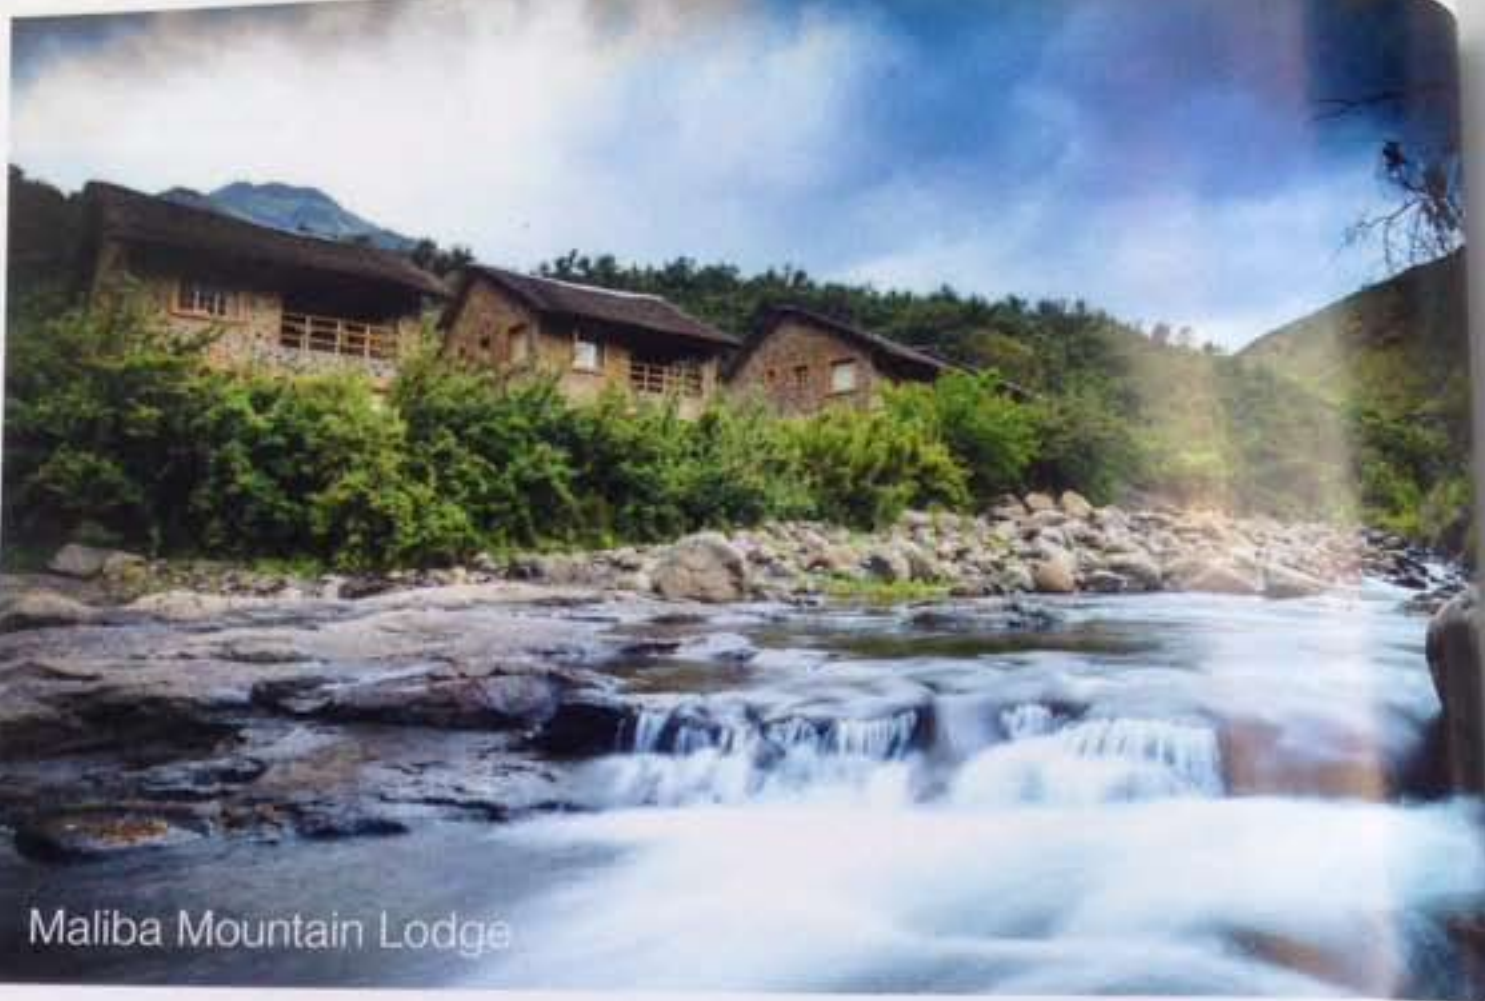

Tourette Fishing Makhangoa Community Camp

A secluded gem that's perfect for small groups. From here you can take day drives on numerous tracks or dirt roads. If you're the outdoorsy type, you can hike, swim, trek with ponies, and, of course, fly-fish.

The campsite features a hot shower, kitchen, toilet and other basic facilities, but plan to be self-sufficient. Bookings are handled by Tourette Fishing on (033) 343 2182 or www.tourettefishing.com

Maliba Mountain Lodge

If the distance from your home town to the campsite is too great, you may want to break up the journey with a wonderful stopover at Maliba Mountain Lodge. This resort is situated in the Tsehlanyane National Park in northern Lesotho and is only an hour's drive from Clarens. The views are spectacular; and you can choose between their 3-star accommodation or 5-star catered alternative. Contact them on (031) 702 8791 or www.maliba-lodge.com

Maliba Mountain Lodge

Katse Lodge

If you're not keen on camping, but you'd like a closer look at this part of Lesotho and Katse Dam, then the Katse Lodge is a sensible option. The lodge has great views of the dam and offers a wide range of accommodation options. Call them on +266 2291 0202 or www.katselodge.co.za

Sani Mountain Lodge

Overlooking the pass itself, the Sani Mountain Lodge is a famous lunch stop and overnight destination. There's a range of accommodation types on offer, as well a cosy pub. Call 078 634 7496 or www.sanimountain.co.za

PLACES OF INTEREST

Katse offers tours of the dam that will fascinate even the least technically-minded visitor. They also have a botanical garden filled with the alpine plants of Lesotho.

FUEL

Diesel and petrol can be found in most towns, but you may be forced to purchase expensive fuel that's sold out of a jerrycan. Luckily, distances in Lesotho aren't vast, so if you fill up in Butha-Buthe you should be fine throughout your tour. Otherwise, there's a relatively formal fuel station in Thaba-Tseka.
